■ More than we could cover... Many thanks for the huge interest! :o)

My education/background is...

■ More than we could cover... Many thanks for the huge interest! :o)

My education/background is...

I work on QC software since...

■ More than we could cover... Many thanks for the huge interest! :o)

My education/background is...

I am particularly interested in...

■ More than we could cover... Many thanks for the huge interest! :o)

I find most challenging in quantum SW development:

At the Forum

At the Forum

- **Program** is available at https://www.cda.cit.tum.de/flyers/mqsf 2025 final p rogram.pdf
- Pitches and Posters
 Two different setups for Monday and Tuesday!
- Feel free to use our "lounge areas" to engage in hands-on sessions, connect with fellow participants, and join in lively discussions about the future of quantum software.
- Wifi Access is available through "MQSF_WiFi" with the password EntangleMe25.
- Photos and Videos will be made during the event. Feel free to do so as well!

Send Greetings Back Home

Social Media

We are no real social media experts, but if you plan to post something, please consider using the hashtag **#MQSF**.

■ Postcard

- In your "Welcome Package"
- Write some greetings and add complete address on the right-hand side of the back
- □ Put it into the "mailbox" at the registration
- We will take care of sending it

Greetings from the Forum

□ Photo Op ;o)

Acknowledgements

We sincerely thank the European Research Council (ERC) under the European Union's Horizon 2020 research and innovation program (grant agreement No. 101001318), the Bavarian State Ministry for Science and Arts through the Distinguished Professorship Program, the Munich Quantum Valley, as well as the Technical University of Munich for their support in organizing this event!

Technical University of Munich

Thank You!
